SUMMARY

Experienced Senior Web Developer with over 8.5 years in web application development for telecom, internet banking, and healthcare domains. Proficient in translating business requirements into digital solutions, collaborating with stakeholders, designing, coding, testing, deploying, debugging, and mentoring as a valuable team member.

SKILLS

HTML5 · CSS3 · JavaScript · React · Redux · NextJS · Node · Express · MongoDB · TypeScript · GraphQL · PassportJS · GIT · Ubuntu/SSH · AWS

WORK EXPERIENCE

Senior Consultant   Feb 2022 - May 2023

Optimum Infosystem, Hyderabad

- Collaborated with DBS Bank to transform and enhance public webpages, connecting to the Teamsite UI using React components. Integrated these components into a Next.js application to leverage benefits like server-side rendering, automatic code splitting, and improved SEO.
- Led a team of developers in implementing advanced functionalities, such as dynamic content rendering, to deliver a seamless user experience with the performance advantages of Next.js.
- Utilized React and Next.js to enhance specific features, such as localization, ultimately achieving increased user engagement through faster page loads and better search engine optimization.

Senior Software Engineer   Mar 2018 - Dec 2021

Larsen and Toubro Infotech, Pune

- Contributed to the development and customization of ABSA Internet Banking, including self-registration, fund transfers, and transaction history enhancements.
- Led the development and improvement of the Citi-Global Concentration Engine accounts-dashboard and sweep execution functionalities, optimizing cash consolidation and enhancing the user experience.

Senior Technical Consultant - Contract   Nov 2017 - Feb 2018

Ohum HealthCare IT Solutions, Pune

Led the development and enhancement of the inventory module for the Docit Web app, enabling users to access stock information, update alerts, and consumption reports. Docit offers online healthcare management features for doctors and patients, including patient history, appointment booking, insurance, bill payments, and inventory management.

Associate Software Engineer   Jun 2014 - Oct 2017

Amdocs, Pune

Developed and enhanced AT&T's Order Management System, enabling customers to manage pre and post-checkout information for AT&T orders, including modifying existing orders, porting phone numbers, and updating LSR carriers. Additionally, provided production support for improved order processing.

PROJECTS

Public Web(PWEB) - DBS, Singapore - Optimum Infosys   Feb 2022 - May 2023

Environment: React, NextJS, Javascript, NPM, GIT, Bitbucket, VSCode, testing-library, AWS
1. **Transformation with Next.js**: Revamped DBS's web platform in India and Indonesia with Next.js, benefiting from SSR, CSR, and routing capabilities.
2. **Optimized User Interfaces**: Improved UI for mobile and desktop using Next.js pre-rendering, ensuring responsive design and SEO benefits.
3. **Localizing Content**: Utilized React and Next.js for efficient content localization, enhancing SEO and user engagement.
4. **API Integration and Security**: Integrated API services for real-time data updates, while maintaining strong security measures and regulatory compliance.

ABSA Internet Banking, South Africa - L&T Infotech   Sep 2020 - Dec 2021

Environment: Bootstrap4, SASS, Javascript, React, Node Express, NPM, REST APIs
- Developed and implemented a self-registration feature, allowing customers to register for internet banking using Current, Savings, or Card details.
- Customized the fund transfer feature, enabling users to perform domestic fund transfers to external bank accounts.
- Optimized the transaction history module, providing customers with easy access to account history, transaction details, and e-statement retrieval.
- Contributed to ABSA Internet Banking's suite of financial tools, including balance inquiries and bill payments, ensuring an efficient and user-friendly banking experience.

Global concentration Engine - Citi - L&T Infotech   Mar 2018 - Aug 2021

- Leveraged React's state management and component-based architecture to create an accounts-dashboard, providing users with account arrangement customization.
- Utilized React's reusable components to enhance sweep execution, enabling seamless cash flow management between accounts and centralizing funds efficiently.
- Optimized form field validation with React's error handling, ensuring accurate configuration for cash concentration transactions and improved cash management.

Docit Web - Malta EU - Ohum HealthCare   Nov 2017 - Feb 2018

Environment: HTML5/CSS3, JS, SASS
Built inventory module to enable user access to stock availability stock update alerts and notifications and consumption reports.
• Description: Docit is an online healthcare management system which offers doctors and patients to connect and use several online features
such as – patient history, appointment-booking, insurance, bill payments, inventory.
scalability, and improved data integrity, resulting in a 20% reduction in development time.

Order Management System(OMS) - AT&T - Amdocs   Jun 2014 - Oct 2017

- Developed and enhanced the inquire order data module, responsible for managing pre and post-checkout information for AT&T orders, including telephone numbers, rangedial, port-in, and port-out, ensuring data persistence upon order completion.
- Enhanced TN-porting and TN-ordering flows, enabling customers to modify existing orders by adding TNs, porting TNs, and updating LSR carriers with new carrier companies.
- Provided crucial production support from onshore in Guadalajara, Mexico, facilitating smooth operations of the Order Management System (OMS).
- Played a significant role in OMS's multifaceted responsibilities, including order entry, inventory management, fulfillment, and post-sale services, while optimizing performance and expediting order processing. Acquired expert-level knowledge of OMS, becoming the go-to resource for inquiries related to orders and system issues.

CERTIFICATIONS

AWS Certified Cloud Practitioner   Dec 2021 - Dec 2024

ID: R3YMYW4BN2BQQ334

Full-Stack Web Development with React Specialization - The Hong Kong University of Science and Technology   Dec 2021 - Present

ID: H8ZQ57FBYWTS

EDUCATION

| MASTER OF SCIENCE: COMPUTER SCIENCE | LIVERPOOL JOHN MOORE'S UNIVERSITY - UK | 68% | Jun 2021 - Aug 2022 |

POST GRADUATE DIPLOMA: SOFTWARE DEVELOPMENT	INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY(IIIT-Bangalore)	Grade: 3.75	May 2020 - May 2021
Bachelor Of Engineering: Information Technology	ORIENTAL INSTITUTE OF SCIENCE & TECHNOLOGY - Bhopal	CGPA: 8.1	Aug 2010 - May 2014
